Cynthia Smith  
Agent of Bull Run Scientific, VBT  
Conn & Smith Inc.  
6713 Catskill Road  
Lorton, VA 22079-1113

Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling Amendment – Add Graphics with explanatory text, formatting edits, and revisions to Directions for Use.  
Product Name: Bull Run Fly Attractant  
EPA Registration Number: 84565-2  
Application Date: 4/8/2021  
OPP Case Number: 00296996

Dear Ms. Smith:

The amended labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable.

This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. “To distribute or sell” is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the U.S. Environmental Protection Agency (EPA). If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false

Page 2 of 2  
EPA Reg. No. 84565-2  
OPP Case No. 00296996

or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact Sydnie Hetzel by phone at (703) 347-0220 or via email at [Hetzel.sydney@epa.gov](mailto:Hetzel.sydney@epa.gov).

Sincerely,

Andrew Bryceland, Team Leader  
Biochemical Pesticides Branch  
Biopesticides and Pollution  
Prevention Division (7511P)  
Office of Pesticide Programs

Enclosure

# Bull Run Fly Attractant Master Label

**ACCEPTED**

04/30/2021

Under the Federal Insecticide, Fungicide  
and Rodenticide Act as amended, for the  
pesticide registered under  
EPA Reg. No. 84565-2

Summary of Alternate Brand Name Products			
Alternate Brand Name	Description	Attractant Net Weight (Ounces)	Pages
Disposable Bull Run Medium Fly Trap	The attractant is packaged inside the trap and is not accessible to the user.	1.45	2-5
Disposable Bull Run Large Fly Trap	The attractant is packaged inside the trap and is not accessible to the user.	1.96	6-9
Bull Run Small Fly Trap Attractant	Attractant for the Bull Run Small Fly Trap. Packaged inside the Bull Run Small Fly Trap and sold separately as a refill for the Bull Run Small Fly Trap. Packaged in a printed vapor barrier pouch.	0.51	10-13

{Optional text:}

**GENERAL INFORMATION:**

Provide the consumer with an easy, effective, economical and responsible way to control insect pests: That's the mission we set out to fulfill over 35 years ago.

This product is proven to trap the following species: House Fly, Lesser House Fly, Cluster Fly, Lance Fly, Secondary Screwworm Fly, Flesh Fly, False Stable Fly, Blow Flies and Bottle Flies.

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Cut plastic on top cap at dotted line.
2. Pull open and attach string or wire.
3. Add water to fill line on bag.
4. Hang trap outdoors near a fly source (garbage, compost pile, dog run, stable) to draw flies away from home entrances and outdoor living areas. Strong odor may occur if not placed in well-ventilated area.
5. Attractant pouch will dissolve and activate within 2-5 hours, creating an odor attractive to flies.
6. Replace trap when full, when contents dry out, or after 30 days - whichever comes first.
7. Close cap.
8. Deposit in trash for collection.
9. Wash hands with soap and water.

**Helpful Hints:** Weather conditions affect fly activity and trap effectiveness. In hotter temperatures, place traps in shade. In cooler temperatures, flies will be more active where it is warmer, so place traps in sun-exposed areas.

{Optional text:}

For more significant fly problems, look for larger capacity Bull Run Disposable and Reusable Fly Traps.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store in a cool, dry, well-ventilated location out of reach of pets and livestock.

**DISPOSAL:** Deposit in trash for collection. Wash hands with soap and water.

## Tubular Bull Run Fly Trap Insert

*{Optional text:}*

### **GENERAL INFORMATION:**

Provide the consumer with an easy, effective, economical and responsible way to control insect pests: That's the mission we set out to fulfill over 35 years ago. With the Tubular Trap, we've added another objective: Make it decorative, for the discerning customer who wants to beautify the outdoor landscape.

This product is proven to trap the following species: House Fly, Lesser House Fly, Cluster Fly, Lance Fly, Secondary Screwworm Fly, Flesh Fly, False Stable Fly, Blow Flies and Bottle Flies.

### **DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Tear open pouch and remove Trap Insert.
2. Straighten bag and make sure attractant is at the bottom.
3. Pull up on center tab of top cap until it snaps in place.
4. Place Trap Insert, bag first, into threaded end of decorative cover. Screw top cap in place.
5. Fill trap outdoors using warm water. Add 1 cup water to "dissolve" line and wait five minutes for attractant packet to dissolve. Then add 3/4 cup more water to the "activate" line.
6. Hang trap outdoors at least 20 feet from home entrances and outdoor living areas. Trap emits a strong odor attractive to flies, and works best when placed at a distance drawing flies away from human activity.
7. Replace Trap Insert with Tubular Bull Run Fly Trap Insert when full, when contents dry out, or after two weeks – whichever comes first.

*{Optional text:}*

**Helpful Hints:** Weather conditions affect fly activity and trap effectiveness. In hotter temperatures, place traps in shade. In cooler temperatures, flies will be more active where it is warmer, so place traps in sun-exposed areas.

### **STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store in a cool, dry, well-ventilated location out of reach of children and pets.

**DISPOSAL:** Push down on top cap to close trap, unscrew from decorative cover, and deposit in trash for collection. Wash hands with soap and water.
